EDUCATION & CERTIFICATIONS

Central Connecticut State University - New Britain, CT

December 2026

Master of Science, Computer Information Technology (4+1 Program)

Overall GPA: 3.66

Central Connecticut State University - New Britain, CT

December 2025

Bachelor of Science, Computer Engineering Technology

Overall GPA: 3.44

3x Dean's List

- Club Involvement: Vice President of I.E.E.E., A.S.O Club
- Societies: National Society of Black Engineers, ColorStack, Epsilon Pi Tau
- FactSet Student Ambassador

Certifications:

BioLaunch Laboratory Operations 02/2024,

SolidWorks Associate 03/2021,

OSHA-10 03/2019,

Electronics Technician Certification 05/2023

SKILLS

Leadership/Collaboration: Team Leadership, Project Oversight, Social Networking, Quality Control, Agile/Scrum

Software: Microsoft Office, Google products, Multisim, SOLIDWORKS, Python, Cursor AI, MQTT, C, C++, LabView, Arduino, MATLAB, MSP430 Assembly, VHDL, Docker(basic), Raspberry Pi, AWS, Terraform, Java, Jenkins, Angular, ECS, Bedrock Guardrails, Claude 3.5 Sonnet, PicoMES, GitHub

Engineering: Electronic Circuit Prototyping, Soldering, Blueprint Reading, Circuit Analysis, 3D Modeling, 2D Drafting & Drawings, Assembly Design, Prompt & Retrieval Engineering, Agentic Workflows, Retrieval-Augmented Generation

Hardware: Windows OS, Linux OS, Printer Management, ConnectWise Automate, ConnectWise Manage

Lab: Research and Design/Development, Integrative Workflow, Data Analysis, Good Laboratory Practice (GLP)

WORK EXPERIENCE

The Hartford Insurance – Hartford, CT

January 2026 – Present

T&O LDP Associate - DevOps Engineer

Zygo AMETEK – Middlefield, CT

September 2025 – January 2026

Digital Manufacturing Intern

- Developed and documented digital work instructions for 15 optical products across semiconductor, standard, and defense optics, covering 11–43 manufacturing processes per part
- Queried internal databases using SQL and Copilot to identify high-frequency manufacturing operations and process optimization opportunities
- Implemented IIoT (Industrial Internet of Things) devices across the production floor to capture runtime data and analyze operational efficiency
- Conducted structured interviews with senior opticians to translate tribal knowledge into precise, specification-driven digital work instructions

The Hartford Insurance – Hartford, CT

May 2025 – August 2025

Early Career Leadership Development Program Intern - Cloud and Reliability Engineering

- Provisioned cloud infrastructure with **Terraform**; ensured compliance with **AWS IAM** and security protocols
- Developed and deployed a responsive **Angular UI** integrated with **AWS Bedrock** for real-time chatbot interactions

- Led **prompt engineering** and modular pipeline design for processing unstructured internal documentation
- Deployed **agentic workflows** for autonomous information retrieval, reducing queries by 80% across 800+ engineers
- Engineered a **GenAI-powered** document chatbot using **Claude 3.5 Sonnet** and **Bedrock**, integrating **AWS ECS**, **Lambda**, and **S3** to support a **Retrieval-Augmented Generation (RAG)** workflow

Central Connecticut State University – New Britain, CT
Resident Assistant

August 2024 – May 2025

Connecticut Center for Arts and Technology - New Haven, CT
College Operations Intern and Assistant Trainer

May 2024 – January 2025

FactSet Research Systems Inc. – Norwalk, CT
Software Engineering Extern

May 2024 – May 2024

- Selected as 1 of 15 participants for a two-week externship program, gaining insights into software engineering teams
- Developed Kate AI, a smart portfolio manager, for a hackathon, showcasing innovation and problem-solving

The Computer Company – Cromwell, CT
Client Experience Associate

February 2024 – March 2024

- Managed PC imaging and Service Board tickets, ensuring efficient IT operations
- Implemented cybersecurity measures based on **Bitdefender** recommendations
- Utilized **Cisco Meraki Portal** for network management and optimization
- Leveraged ConnectWise Automate and ConnectWise Manage for streamlined IT operations

Alexion-AstraZeneca Rare Disease Unit- New Haven, CT
Lab Software Developer Intern

October 2023 – December 2023

- Led the development of a comprehensive inventory management system using **Python** and **Neptyne**
- Handled 1,600+ biological samples, supporting protocols and overseeing BSL2 chemical inventory of 20,000+ items
- Designed the system to efficiently organize and retrieve information from a database of compounds, providing real-time data on inventory location, barcodes, available quantities, and unique inventory IDs

Gateway IT Department - New Haven, CT
Information Technology Student Technician

October 2022 – May 2023

- Collaborated with IT professionals to repair a script that affected 36,000+ students and faculty across 12 colleges
- Troubleshoot technical issues in a virtual environment that allowed users more efficient access to their data
- Installed and configured hardware, software, and networks around campus as well as updating necessary software such as **Bomgar**, **Windows OS**, **Mac OS**, **Microsoft Azure**, and **Active Directory**

LEADERSHIP

Institute of Electrical and Electronics Engineering (IEEE) – Vice President

July 2023 – April 2024

- Recruited approximately 40 new members during the CCSU involvement fair
- Spearheaded initiatives to establish partnerships with leading financial technology and insurance to host diversity-focused hiring events companies (**FactSet**, **COCC**, **The Hartford**, **Travelers**).
- Hosted Professional development workshop with Travelers and taught students about marketable skills
