EDUCATION & CERTIFICATIONS

Central Connecticut State University - New Britain, CT

December 2026

Master of Science, Computer Information Technology (4+1 Program)

Central Connecticut State University - New Britain, CT

December 2025

Bachelor of Science, Computer Engineering Technology

Overall GPA: 3.43

- Club Involvement: Vice President of I.E.E.E., A.S.O Club
- Societies: National Society of Black Engineers, ColorStack, Epsilon Pi Tau
- FactSet Student Ambassador

Certifications:

BioLaunch Laboratory Operations 02/2024, SolidWorks Associate 03/2021,

OSHA-10 03/2019, Electronics Technician Certification 05/2023

SKILLS

Leadership: Team Leadership, Project Oversight, Social Networking, Quality Control

Software: Microsoft Office, Google products, Multisim, SOLIDWORKS, Python, Cursor AI, MQTT, C, C++, LabView, Arduino, MATLAB, MSP430 Assembly, VHDL, Docker(basic), Raspberry Pi, AWS, Terraform, Jenkins, Angular, ECS, Bedrock Guardrails, Claude 3.5 Sonnet

Engineering: Electronic Circuit Prototyping, Soldering, Blueprint Reading, Circuit Analysis, 3D Modeling, 2D Drafting & Drawings, Assembly Design, Prompt & Retrieval Engineering, Agentic Workflows, Retrieval-Augmented Generation

Hardware: Windows OS, Linux OS, Printer Management, ConnectWise Automate, ConnectWise Manage

Lab: Research and Design/Development, Integrative Workflow, Data Analysis, Good Laboratory Practice (GLP)

WORK EXPERIENCE

Digital Manufacturing Intern

Zygo AMETEK – Middlefield, CT

September 2025 – Present

- Create and document digital work instructions for manufacturing machines and processes.
- Use **SQL** to query company databases and identify frequently performed operations.
- Develop step-by-step digital guides for operators and technicians based on data insights.
- Analyze downtime, runtime, and task duration metrics to improve process efficiency.

Early Career Leadership Development Program Intern - Cloud and Reliability Engineering

The Hartford Insurance – Hartford, CT

May 2025 – August 2025

- Provisioned cloud infrastructure with **Terraform**; ensured compliance with **AWS IAM** and security protocols
- Developed and deployed a responsive **Angular UI** integrated with **AWS Bedrock** for real-time chatbot interactions
- Led **prompt engineering** and modular pipeline design for processing unstructured internal documentation
- Deployed **agentic workflows** for autonomous information retrieval, reducing queries by 80% across 800+ engineers
- Engineered a **GenAI-powered** document chatbot using **Claude 3.5 Sonnet** and **Bedrock**, integrating **AWS ECS**, **Lambda**, and **S3** to support a **Retrieval-Augmented Generation (RAG)** workflow

Resident Assistant

Central Connecticut State University – New Britain, CT

August 2024 – May 2025

- Planned and executed 12 educational and social programs for 200+ students to promote engagement and well-being

- Mediated conflicts among residents and enforce university policies to maintain a positive living environment
- Served as a liaison between residents and university administration, ensuring effective communication and support

College Operations Intern and Assistant Trainer

Connecticut Center for Arts and Technology - New Haven, CT

May 2024 – January 2025

- Managed inventory using software like Monday.com and Quartzly for efficient tracking
- Developed and maintained SOPs for inventory management software systems
- Recommended and implemented critical software for improved BioLaunch operations

Software Engineering Extern

FactSet Research Systems Inc. – Norwalk, CT

May 2024 – May 2024

- Selected as 1 of 15 participants for a two-week externship program, gaining insights into software engineering teams
- Developed Kate AI, a smart portfolio manager, for a hackathon, showcasing innovation and problem-solving
- Engaged in workshops focused on communication, presentation, and problem-solving skills
- Completed intensive Python training and participated in tech talks on AI, Machine Learning, and Cloud Computing
- Networked with FactSet professionals to enhance understanding of industry practices

Client Experience Associate

The Computer Company – Cromwell, CT

February 2024 – March 2024

- Managed PC imaging and Service Board tickets, ensuring efficient IT operations
- Implemented cybersecurity measures based on **Bitdefender** recommendations
- Utilized **Cisco Meraki Portal** for network management and optimization
- Monitored and troubleshooted alerts from various devices, ensuring minimal downtime
- Leveraged ConnectWise Automate and ConnectWise Manage for streamlined IT operations

Lab Software Developer Intern

Alexion-AstraZeneca Rare Disease Unit- New Haven, CT

October 2023 – December 2023

- Led the development of a comprehensive inventory management system using **Python** and **Neptyne**
- Handled 1,600+ biological samples, supporting protocols and overseeing BSL2 chemical inventory of 20,000+ items
- Designed the system to efficiently organize and retrieve information from a database of compounds, providing real-time data on inventory location, barcodes, available quantities, and unique inventory IDs

Information Technology Student Technician

Gateway IT Department - New Haven, CT

October 2022 – May 2023

- Collaborated with IT professionals to repair a script that affected 36,000+ students and faculty across 12 colleges
- Troubleshoot technical issues in a virtual environment that allowed users more efficient access to their data
- Installed and configured hardware, software, and networks around campus as well as updating necessary software such as **Bomgar**, **Windows OS**, **Mac OS**, **Microsoft Azure**, and **Active Directory**
- Contributed to team effort by regularly doing printer maintenance and management

LEADERSHIP

Institute of Electrical and Electronics Engineering (IEEE) – Vice President

July 2023 – April 2024

- Recruited approximately 40 new members during the CCSU involvement fair
- Spearheaded initiatives to establish partnerships with leading financial technology and insurance to host diversity-focused hiring events companies (**FactSet**, **COCC**, **The Hartford**, **Travelers**).
- Hosted Professional development workshop with Travelers and taught students about marketable skills
